

THEMES FOR 2023-2024

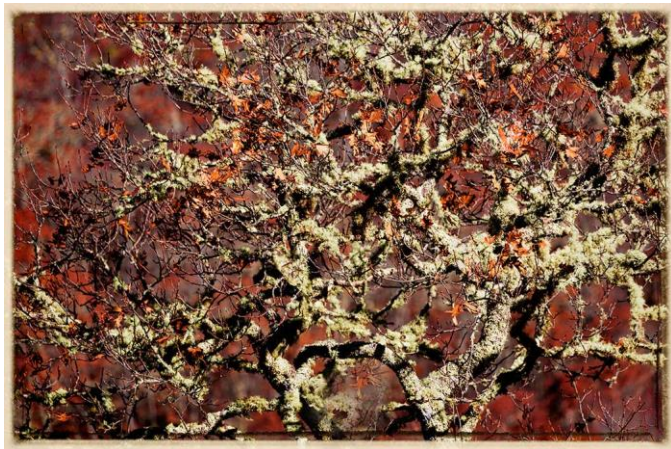

November 16 - ABSTRACT

Abstract photography is a means of depicting a visual image that does not have an immediate association with the object world and that has been created through the use of photographic equipment, processes or materials. An abstract photograph may isolate a fragment of a natural scene or object in order to remove its inherent context from the viewer, it may be purposely staged to create a seemingly unreal appearance from real objects, or it may involve the use of color, light, shadow, texture, camera movement, shape and/or form to convey a feeling, sensation or impression.

Use of filters or photoshop manipulation to create the abstract is allowed as long as the image is originally based on a photograph taken by the club member.

The following images are examples of abstract photographs

January 25 - LANDSCAPE (No hand of man.)

The following two images *do not* include the hand of man and therefore would be compatible with the theme.

The following two images include the hand of man (a road and houses) and therefore would *not be* compatible with the theme.

March 21 - BEGINS WITH THE LETTER “T”

Photographs of anything such that the main subject of the image is something that begins with the letter “T”. For example: trees, turtles, typewriters, tools, toddlers, tables, trains, twisted, etc.

It is suggested that when selecting a title for your image that it include the “T” subject, such as: “Turtle Swimming” or “Toddler Smiling”.

The following image *would not be* compatible with the theme. While there are trees (the letter “T”) in the image, the main subject is the church not the trees.
